

Mirrors

traffic, safety, and surveillance

Traffic Mirrors

- ▶ Made of unbreakable plastic: the material is resistant to abrasion and mechanical damage.
- ▶ Supplied with a universal system for mounting onto a wall or a round post which enables very precise positioning of the mirror.
- ▶ Tested for resistance against wind up to 183 km/h.

Safety and Surveillance Mirrors

- ▶ Made of shatter-proof plastic (polycarbonate). The material is resistant to abrasion and mechanical damage. Backing also made of plastic.
- ▶ The advantage of plastic mirrors lies in their low weight, ease of installation, and long life.
- ▶ Supplied with a universal system for mounting to a wall or a round post.
