

Low-Lifter

- ▶ Low weight and compact dimensions facilitate handling in confined spaces.
- ▶ High manoeuvrability and stability ensured by five-point contact with the floor.
- ▶ Fitted with a built-in charger. 700 mm wide chassis, narrower than a EURO pallet. Truck is only 420 mm long (without fork). Rollers on the tips of the forks included as standard.

Type **4693**

 1150 × 520 mm (fork)

 1300 kg

 200 kg (without battery)

 2 × 12 V

Low-Lifter with Scales

- ▶ Easy handling and ability to immediately check the weight of transported material.

Type **3101**

 1220 × 560 mm (fork)

 2000 kg

 130 kg

With Battery-Powered Lifting and Travel

- ▶ With electric lifting and travel mechanisms for handling loads weighing up to 1500 kg.
- ▶ Lightweight and easy to steer.
- ▶ Fitted with a button to reduce speed, and with an electromagnetic brake.
- ▶ Fitted with a lithium-ion battery characterised by high performance, low charging time, and long life (battery does not need to be removed for charging).
- ▶ Comes with an external charger.

Type **8440**

 1150 × 540 mm (fork)

 1500 kg

 123 kg
